## **Abstract**

---

Here, we decided to make a web site for our favorite coffee shop, which is Wakeup.

A place for selling hot and cold drinks, milkshakes and sweets. We decided that the design should be:

Home→ About→Menu→Feedbacks→Team→Contact Us.

## **Introduction**

---

The idea of this website is to offer a digital copy of the menu, available for and easily accessed by customers from home.

Then they decide what they want to buy and go to the coffeeshop and take their order.

And also they can reserve a table.

For example, I may be on the road and want to drink something, but I do not know what it is, so I open the website and then decide what I want.

## **Requirements**

---

## **Wakeup requirements:**

✚ The wakeup application will be used by the customers(users). Make the menu and what the coffeeshop offers you in your hands.

✚ This website is divided into sections, each section is visible by the user.

We have the home section here as the main interface of the website, then the about section here, a little about Wakeup, then the menu section here are the products that are offered to customers with the price of each product.

Then the Feedback section here provides some of the opinions of others about Wakeup and also anyone can give their opinion with pleasure:).

Then we have the team section, we have attached 3 group photos of the team with the date of each photo, then the contact us section. Here is other information about wakeup : location ,opening hour ,contact us.

✚ Each user can create an account on the site or not. Finally, he can view the website with or without his account.

✚ Not only can customers browse the menu options, they can also book a table and write feedback for their experience, too.

Each user has: First Name , Last Name , Phone-Number , City , Email and password.

## Tools used in the project

---

When click **Reserve Table**:

The screenshot shows the WakeUp website with a reservation form overlay. The website background features a dark, cozy interior with warm lighting and a vertical garden wall. The text "WakeUp" is prominently displayed in white, with the tagline "Anytime You Want To Wakeup You Will Find **WAKEUP**" below it. Two orange buttons, "Menu" and "Reserve Table", are visible on the website. The reservation form overlay is white with a close button (X) in the top right corner. It contains the following fields:

- No Of People**: A text input field.
- Date: Mm/Dd/Yyyy**: A date picker icon.
- Time: --:--**: A time picker icon.
- Email**: A text input field.
- Phone**: A text input field.
- Book Table**: An orange button.

Example:

**No Of People** ✕

## ➤ Feedback Page

Customer's photo icon's frame will light up once mouse is pointed at it:

The user can write his opinion and send it to him:

Write Your Feedback..

Choose File No File Chosen Submit

Example:

Lovely Place <3

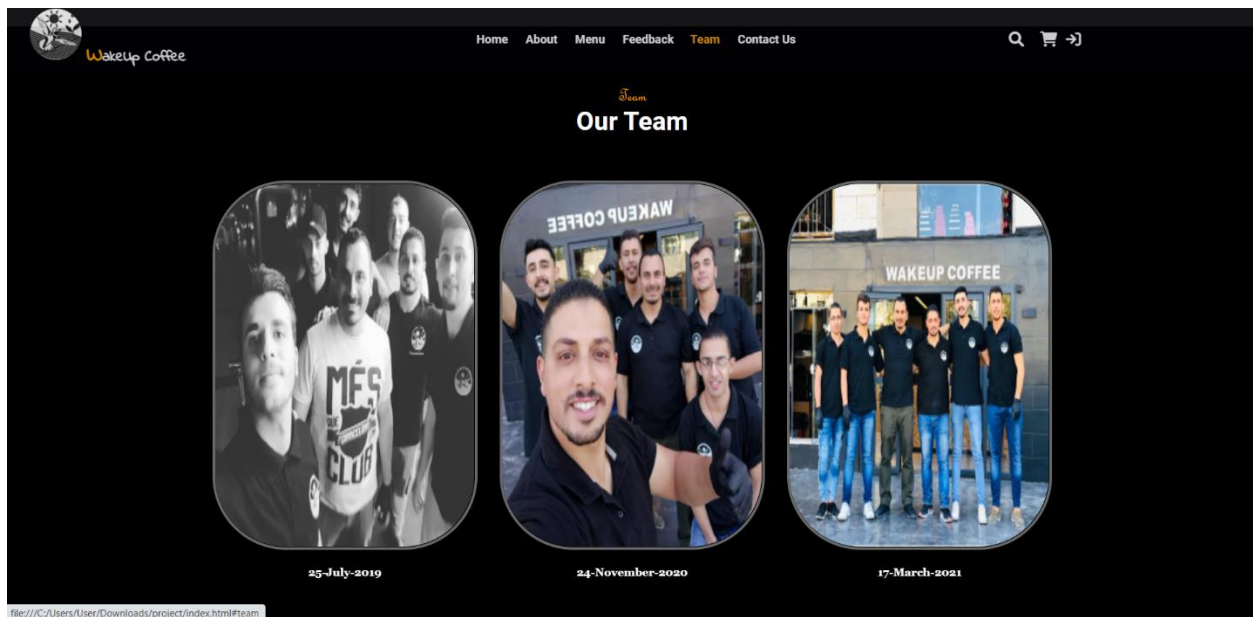

Choose File v.Jpg Submit

It appears in the table like this:

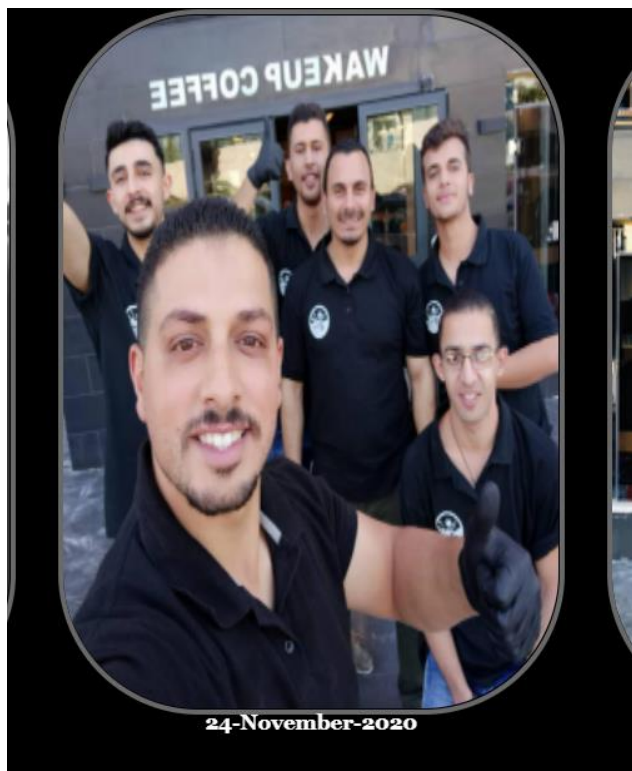

+ Options	
name	feedbacks
sama	lovely place <3

+ Options	
name	feedbacks
sama	lovely place<3
amna	my perfect place
hadeel	i love it
aya	I love ice tea here

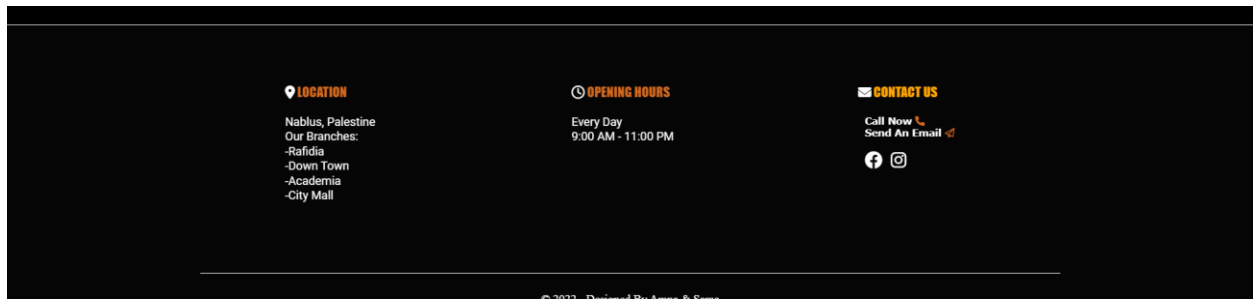

➤ [Team Page](#)

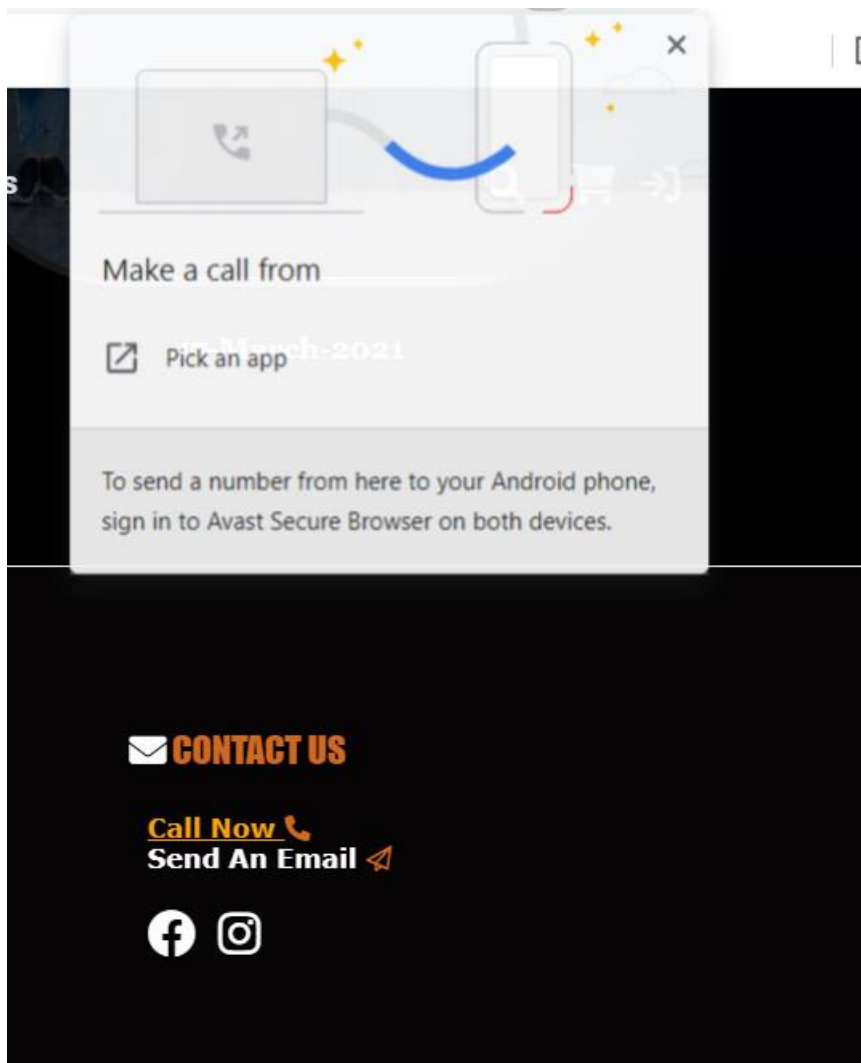

When mouse is pointed at photo, date of capture will pop up

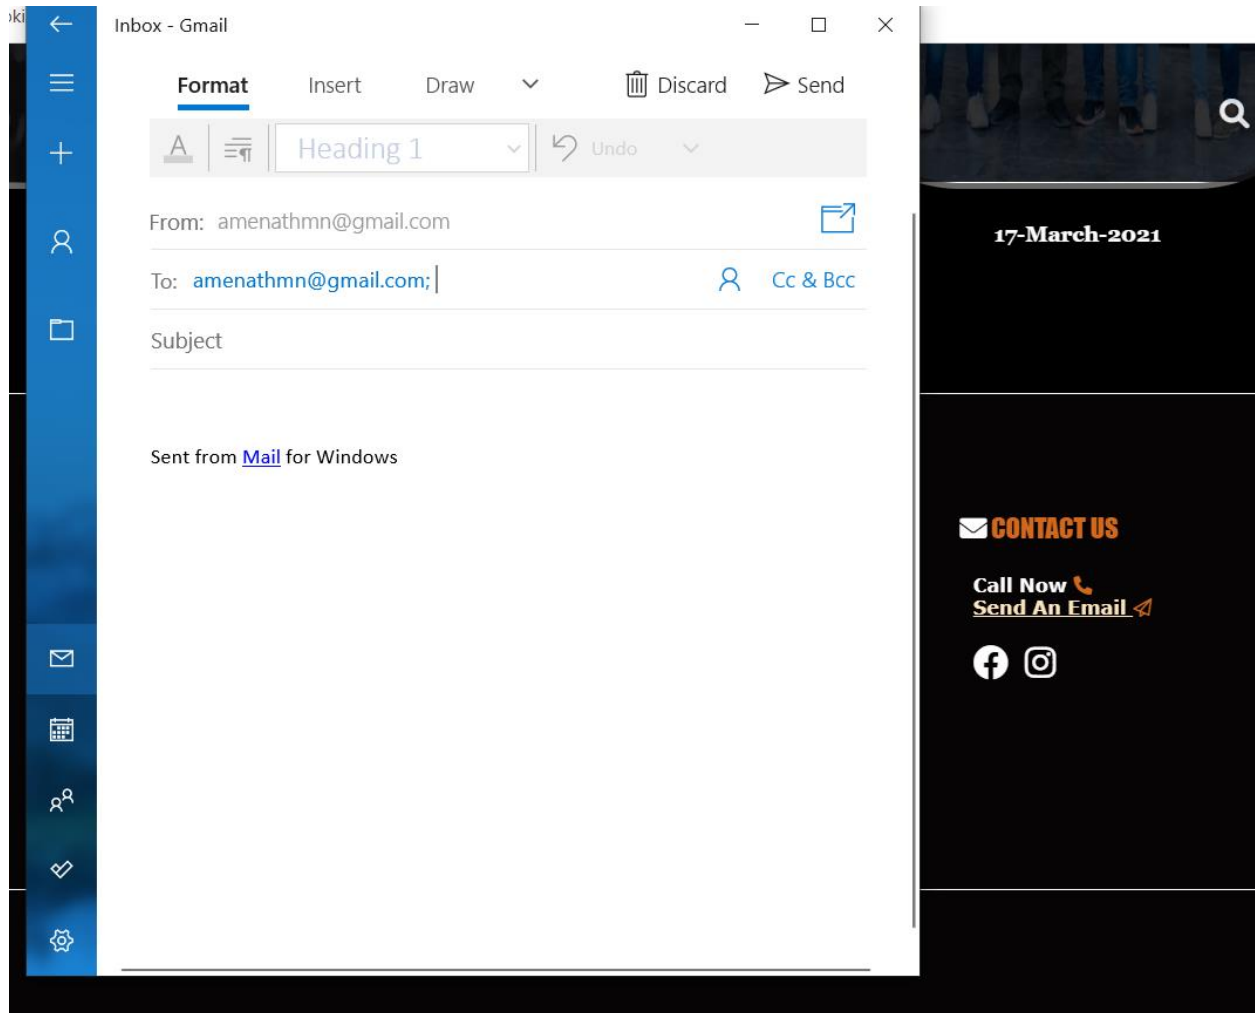

## ➤ Contact Us Page

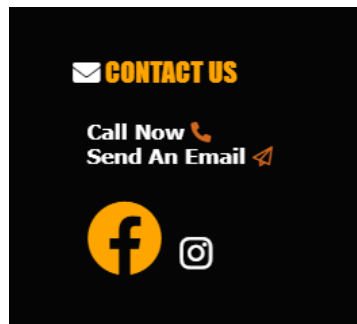

When you click **Call Now**:

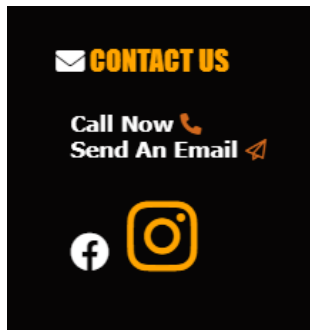

## When click **Send An Email**:

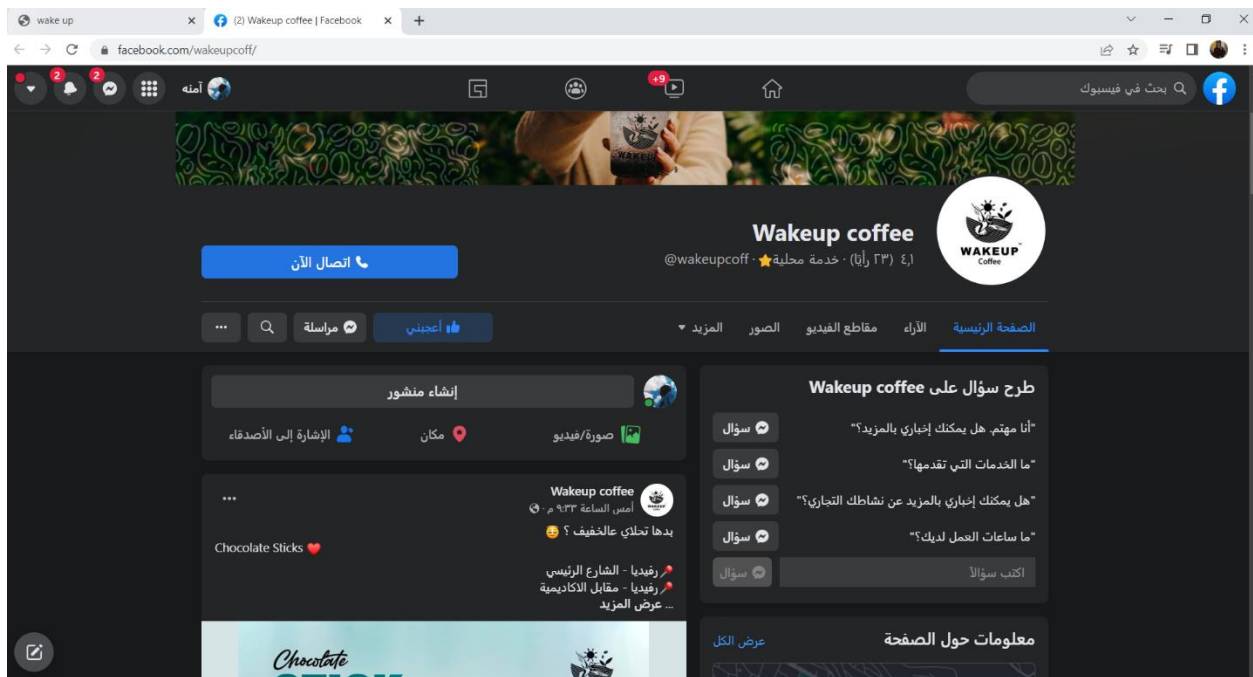

## When mouse facebook icon or instagram icon:

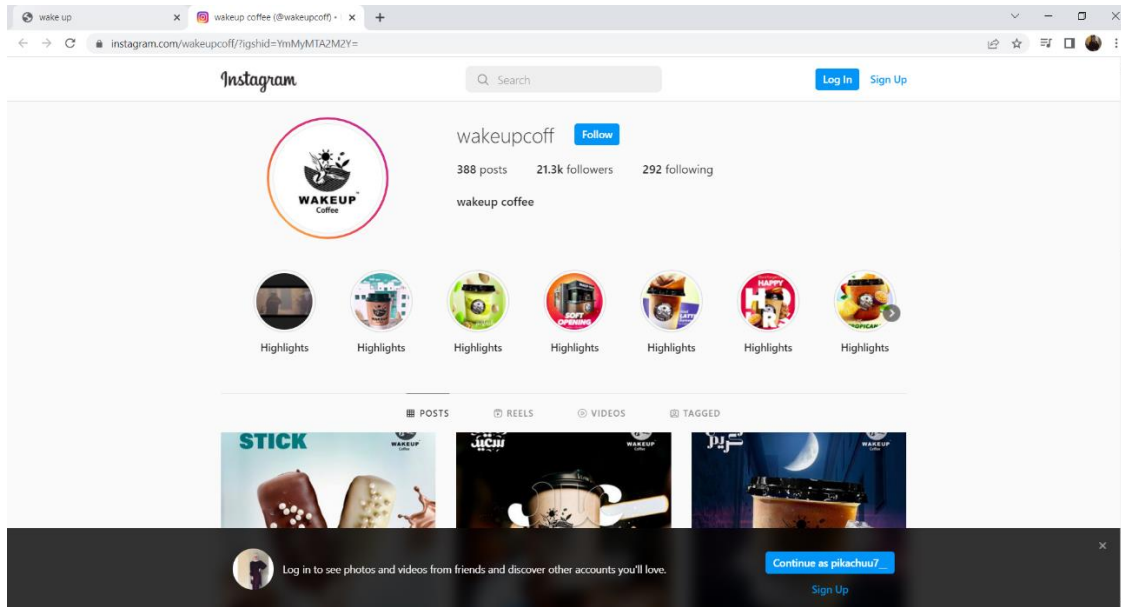

Now when you click the icons:

## Facebook:

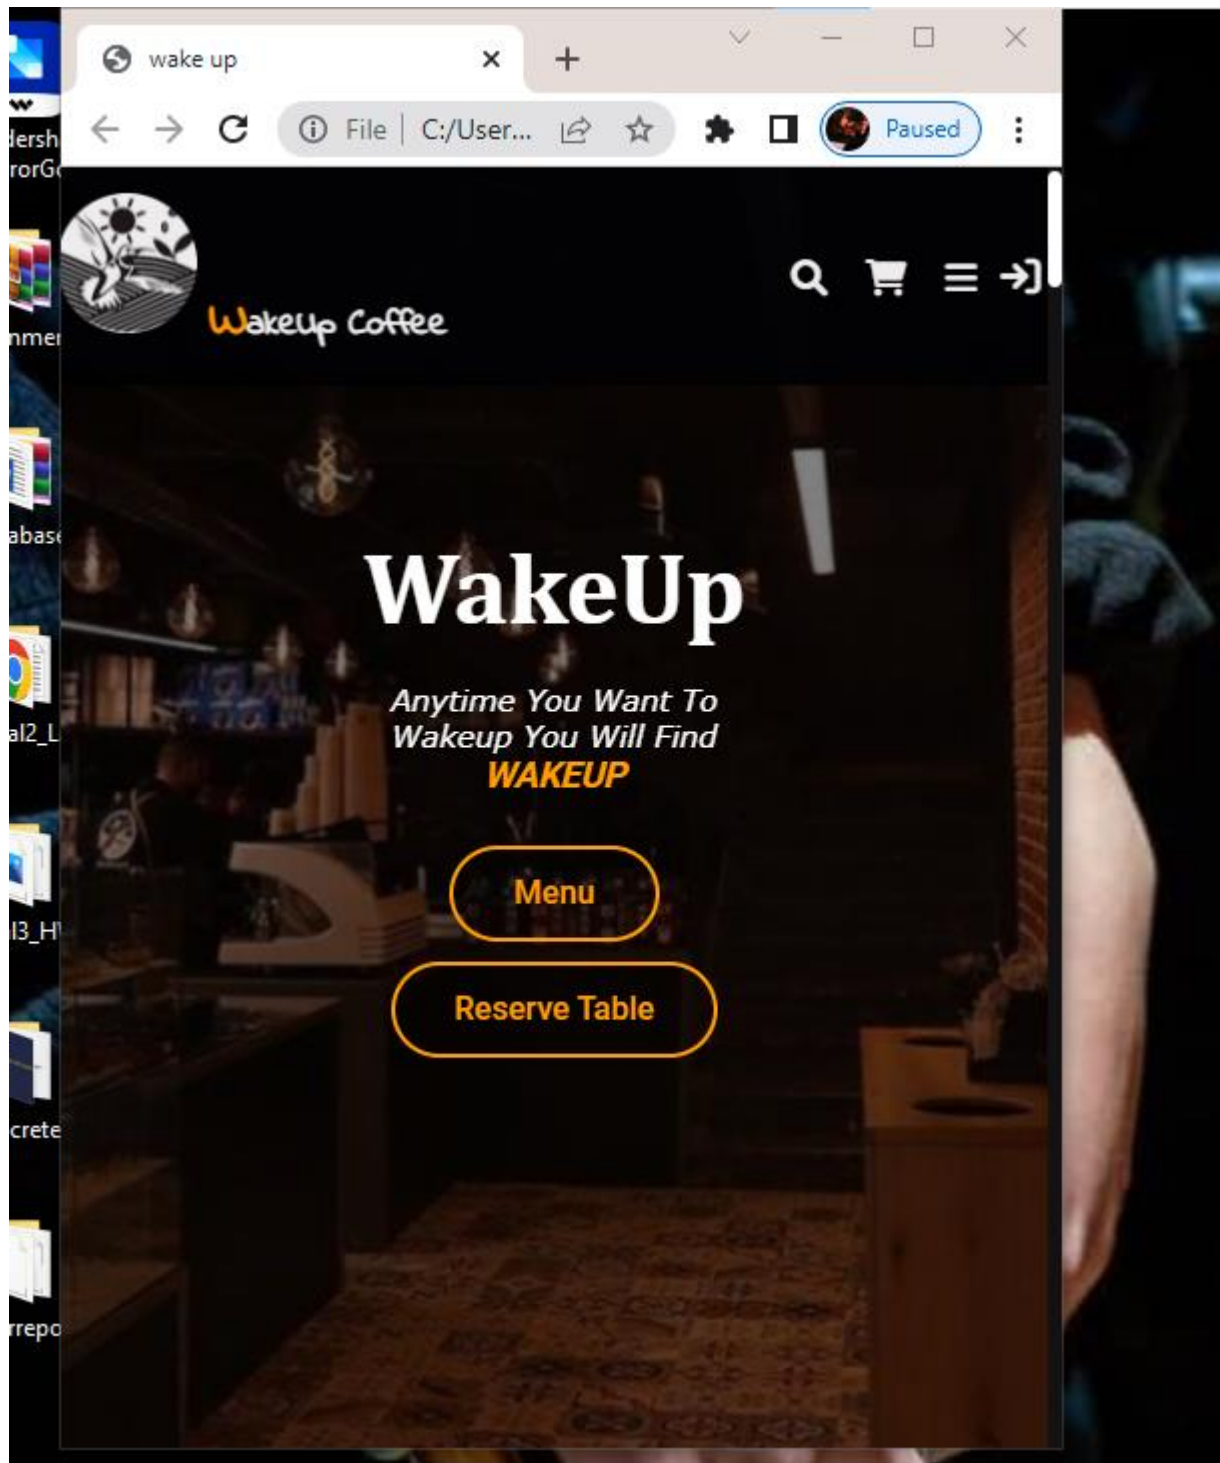

## Instagram:

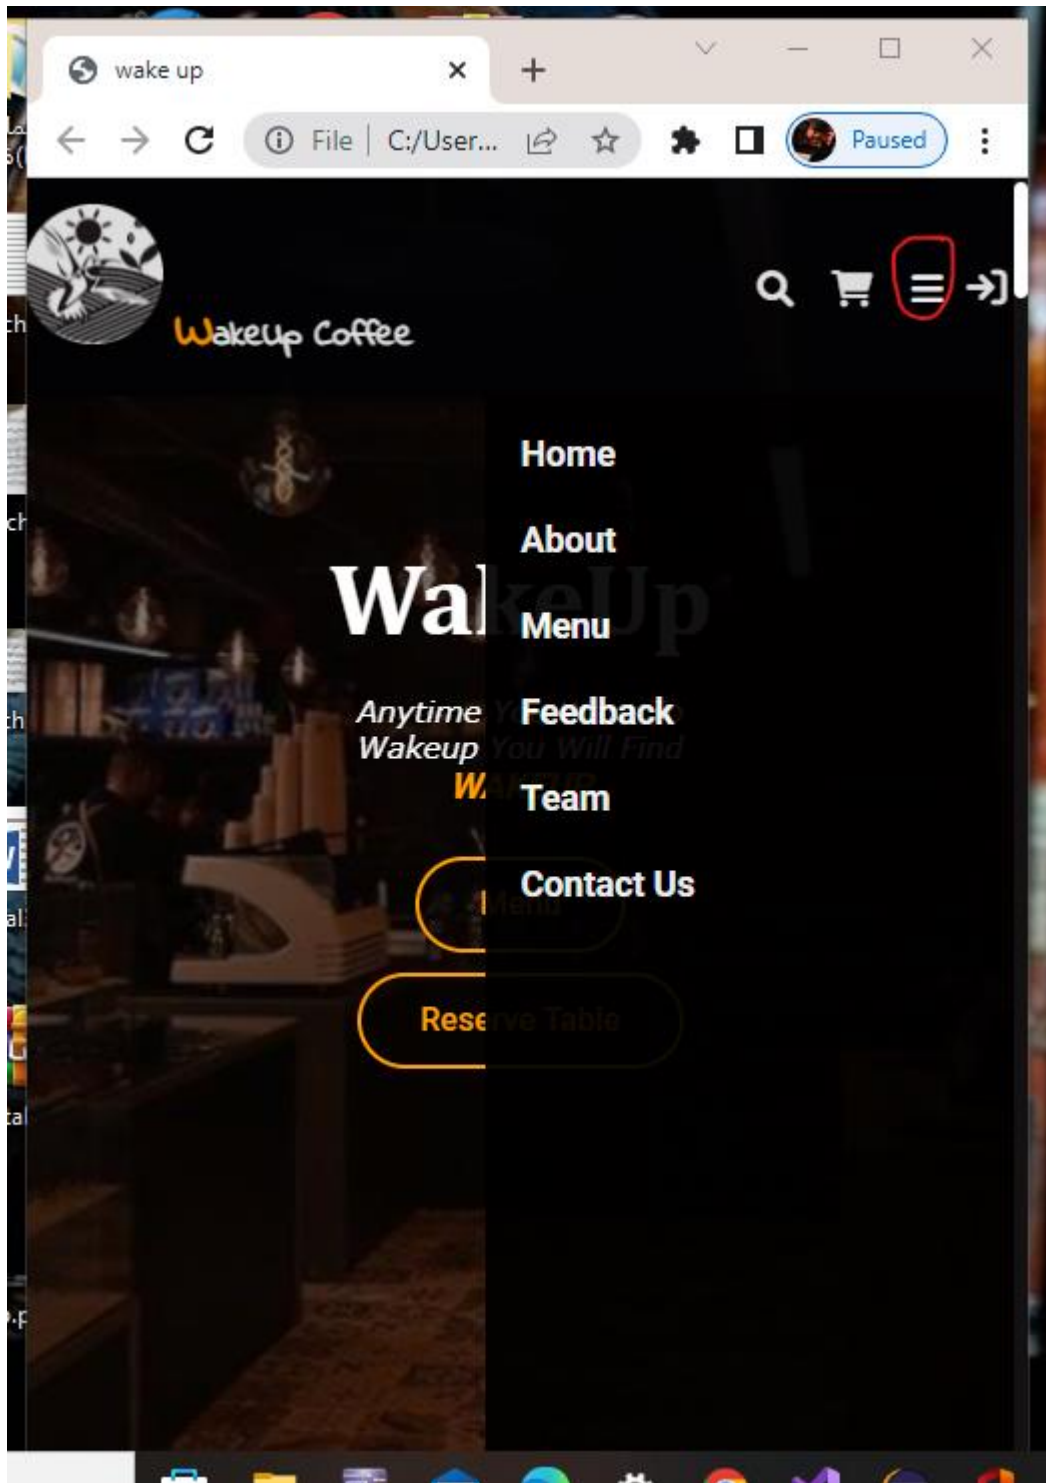

➤ Coppy write page

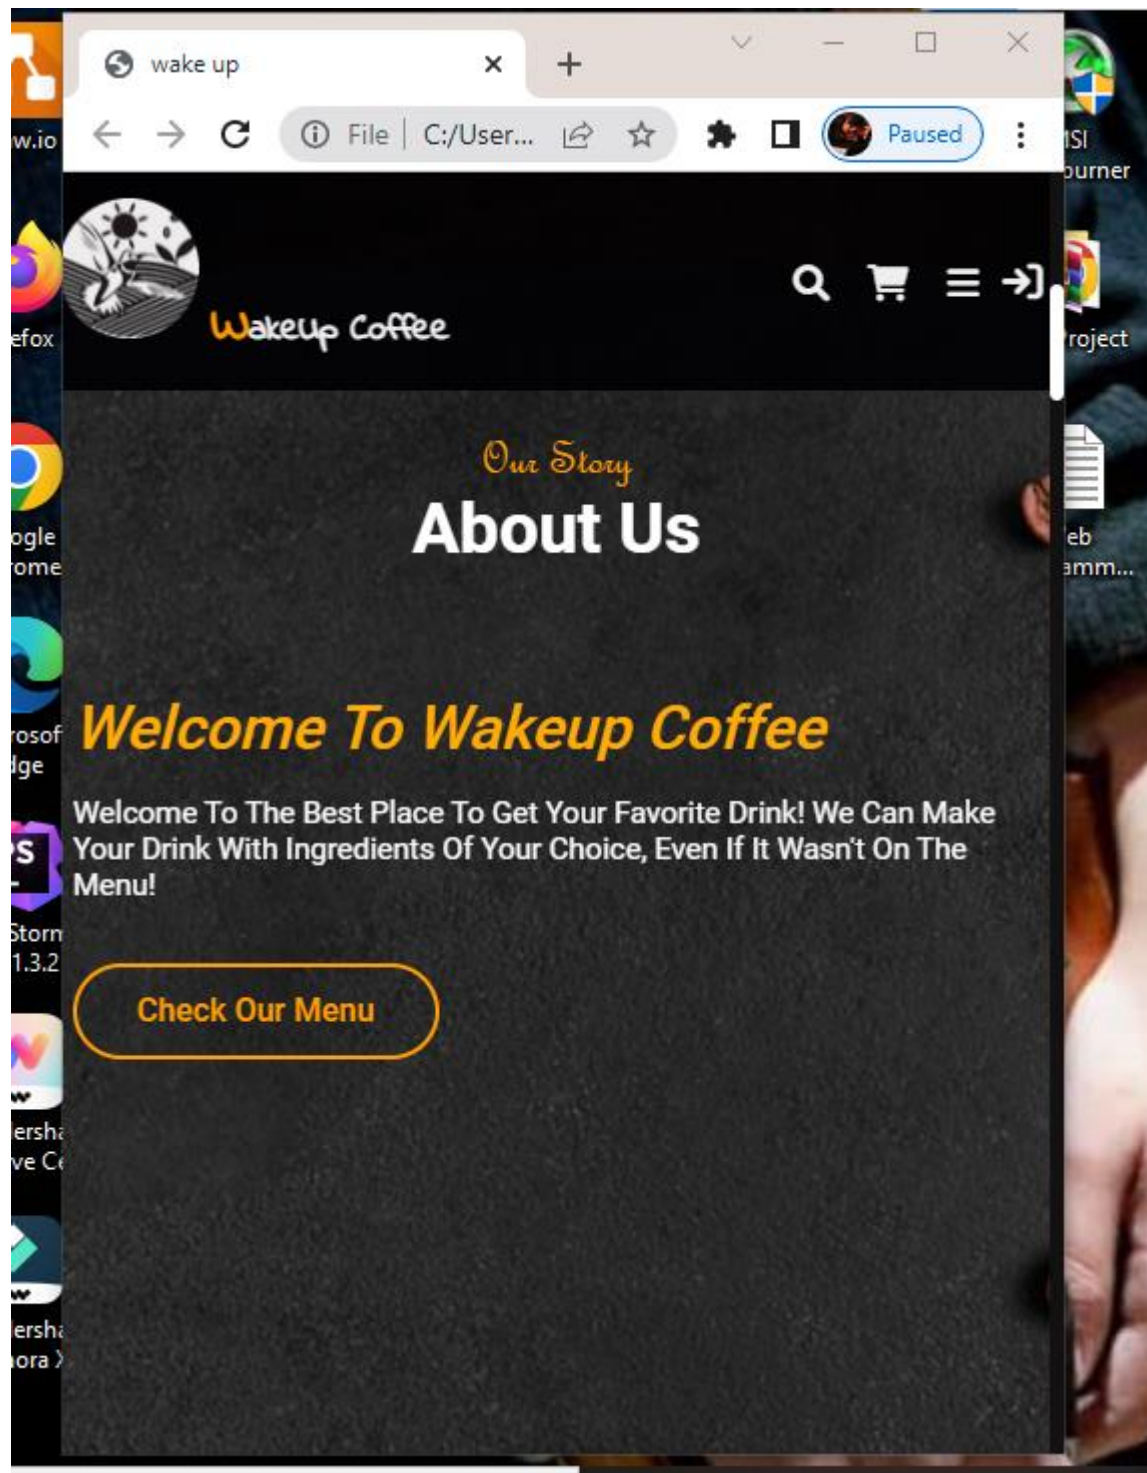

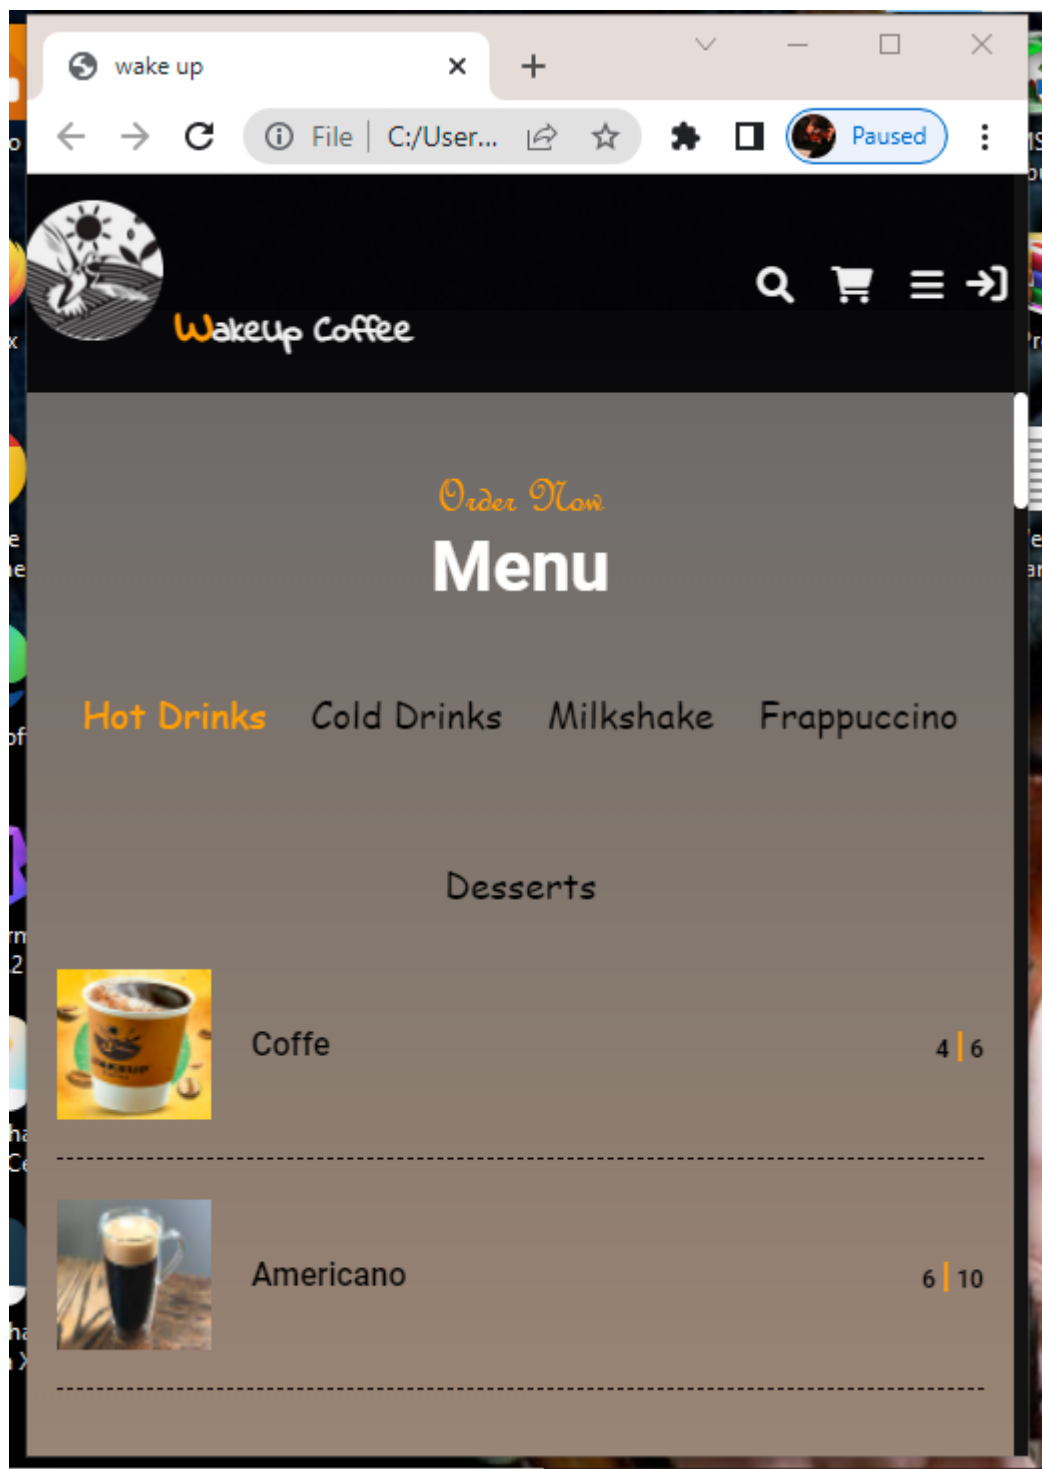

We can also use it on smaller screens:

When we click this menu button:

Wakeup Coffee

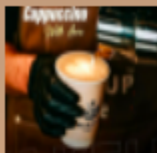

Tea

3 | 5

Hot Chocolate

6 | 12

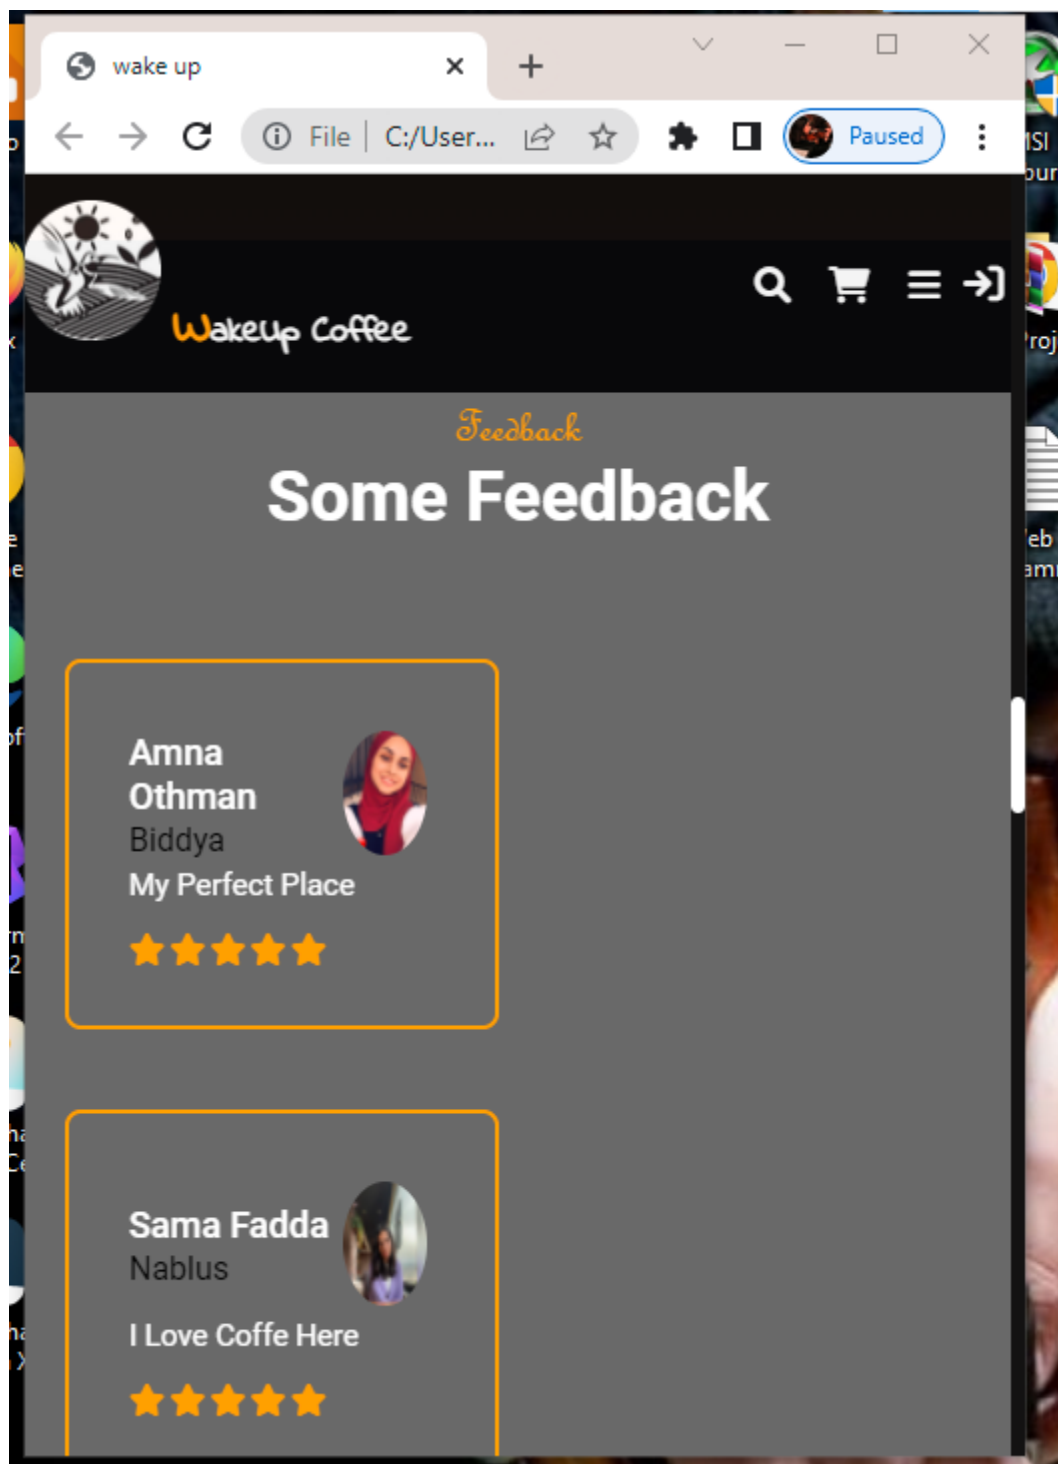

Cappuccino

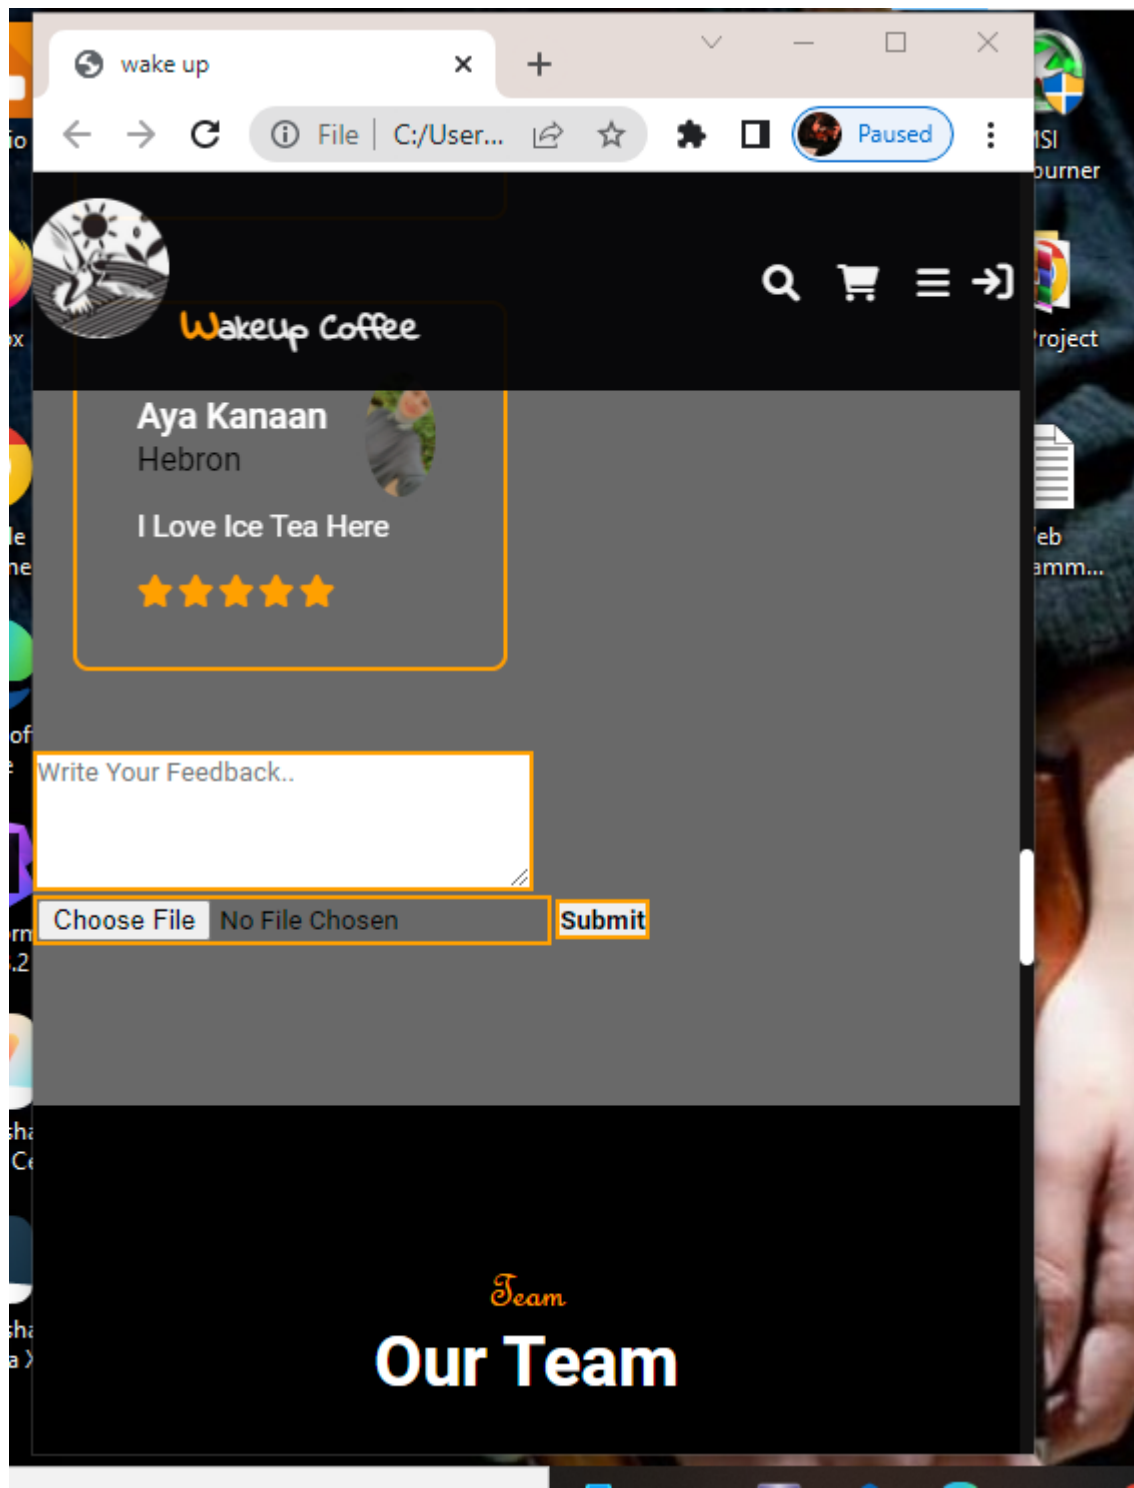

6 | 12

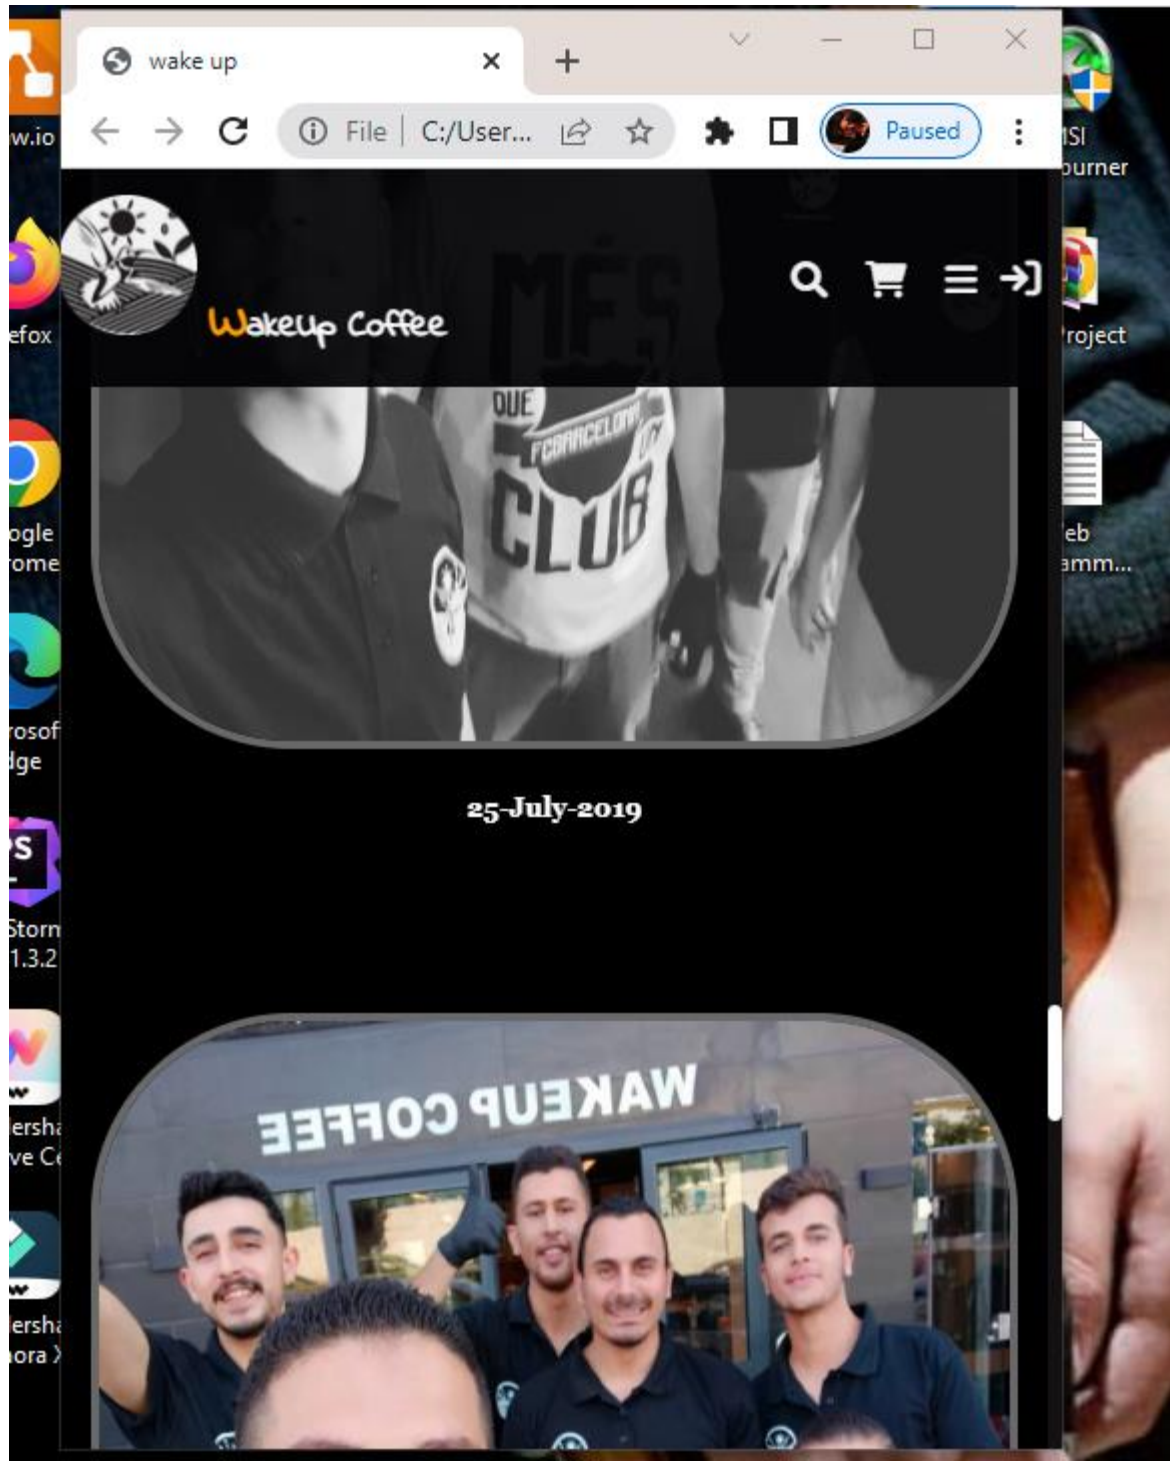

Italian Hot Chocolate

6 | 10

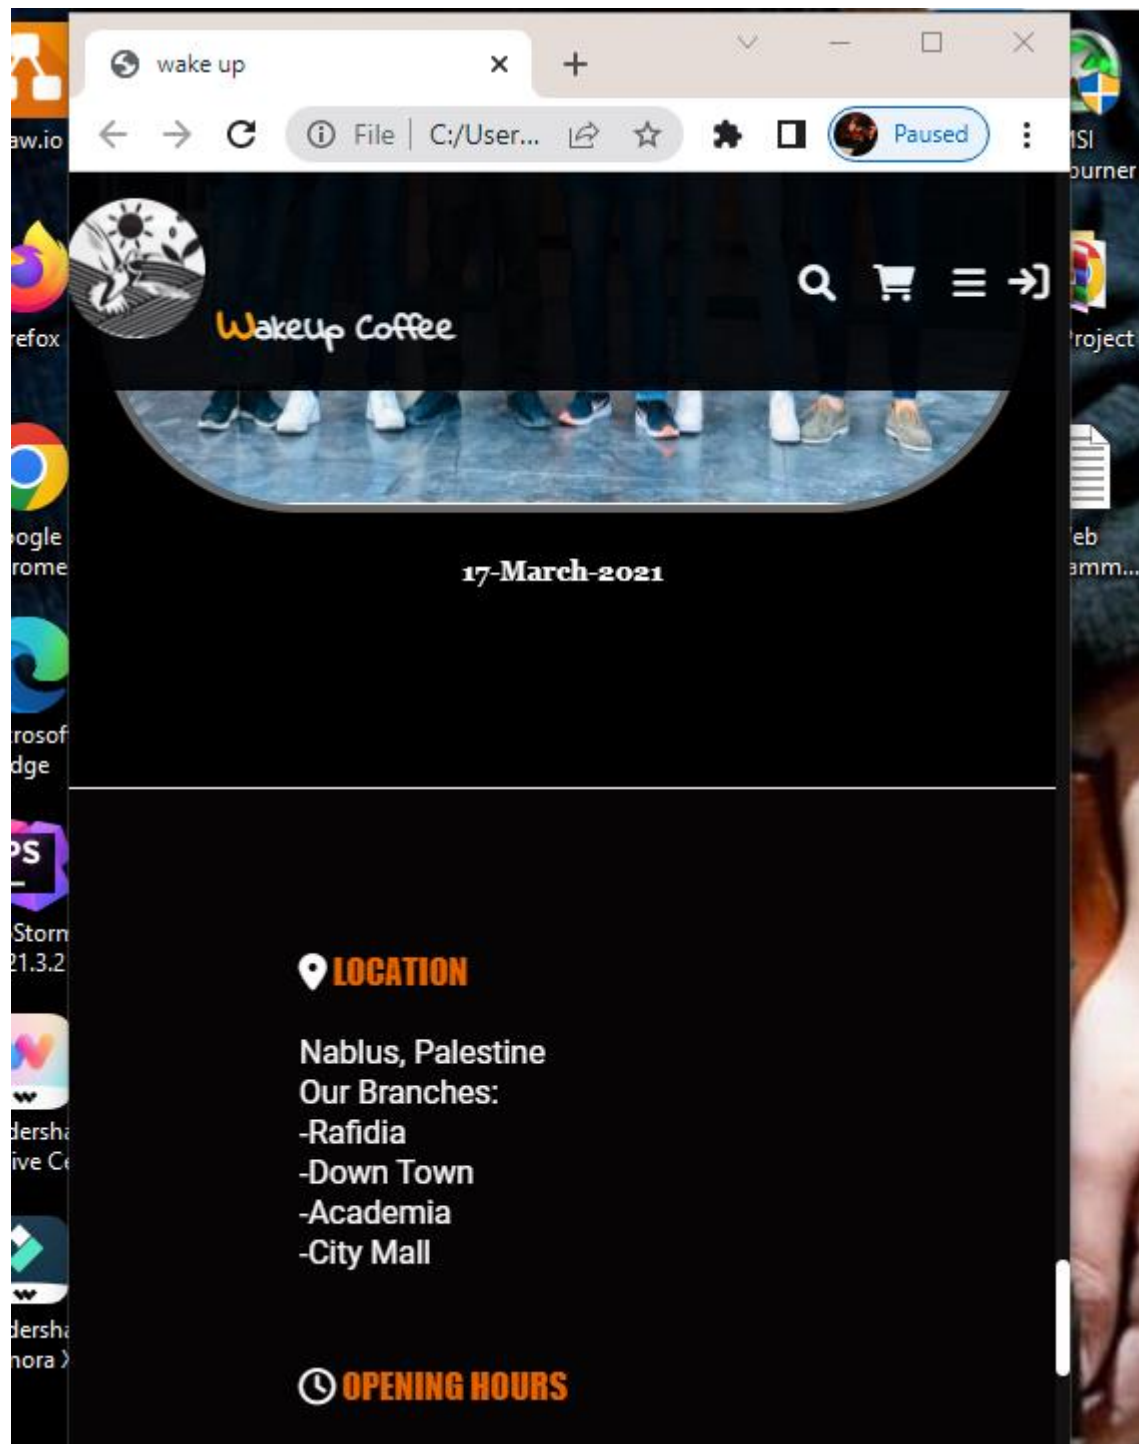

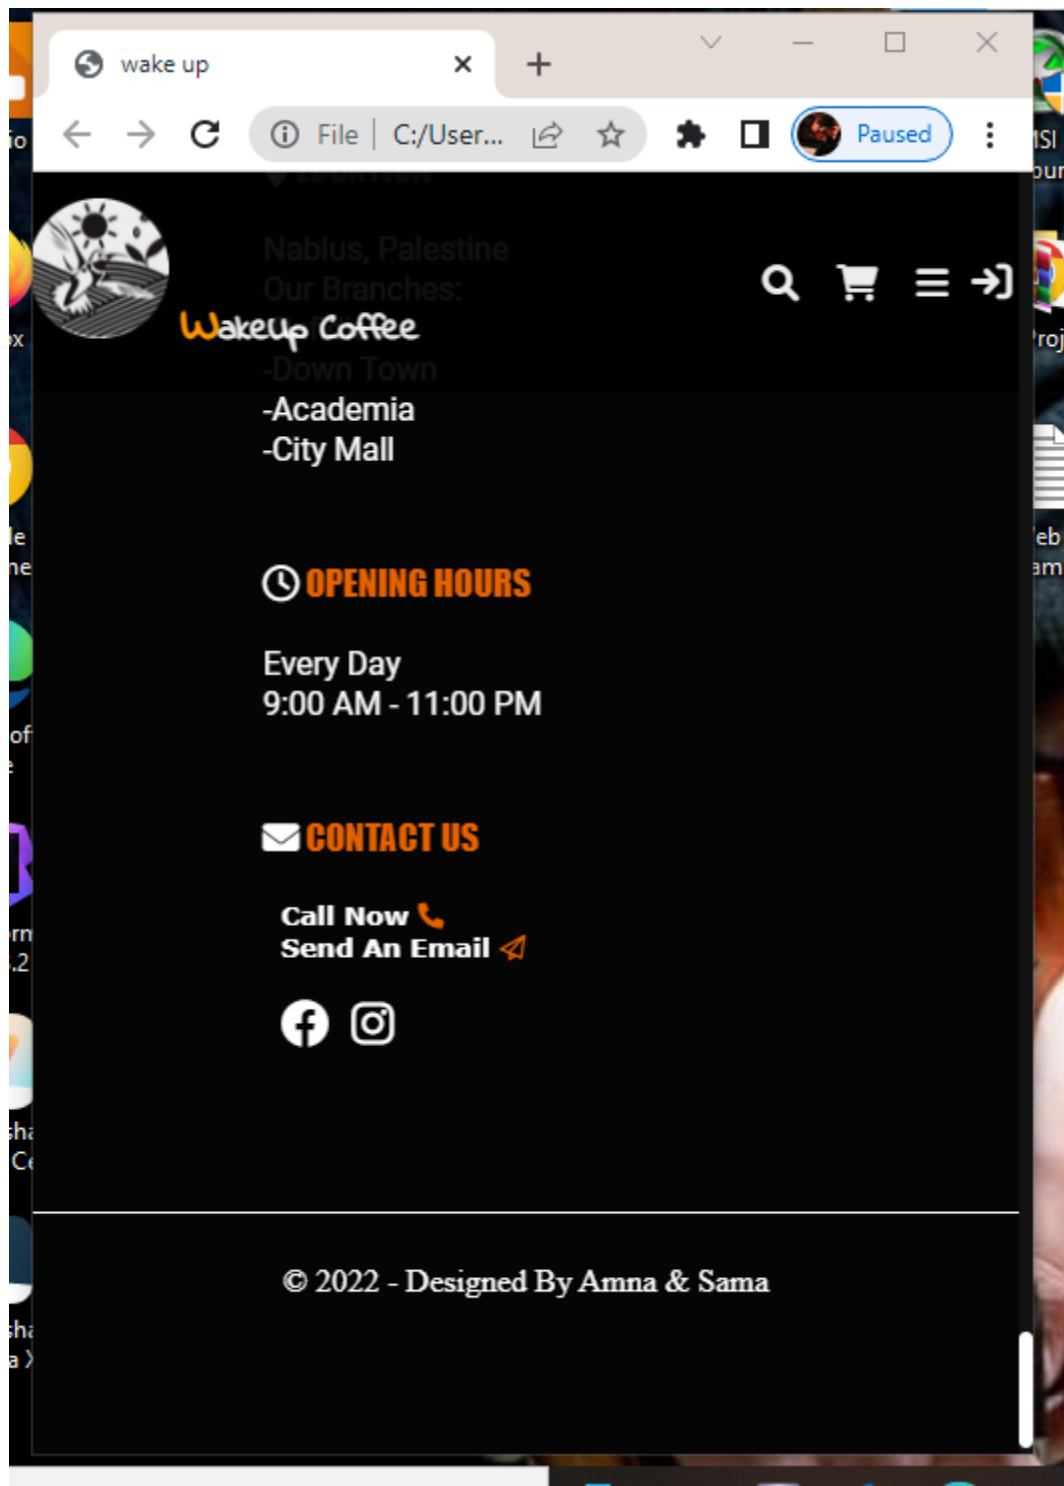

## **Conclusion**

---

In this project, a website was designed for a coffee shop that offers the chance to browse the menu for customers, completely online.
